

VOLT

**ELECTRIC
MOUNTAIN BIKE**

Our new line of hybrid cycles combine high quality bicycle components with electric hybrid technology that allows the rider to utilize traditional pedal power or electric power to motivate the bike. The Volt is an aluminum alloy mountain bike that features a 7-speed rear derailleur system as well as a rear 24V brushless electric motor powered by a light-weight NiMH battery. The Volt is popular among urban mountain bike riders that use their mountain bike for recreational riding and transportation around town.

Technical Information

Frame	Aluminum Alloy
Size	26 inch
Weight	43 lbs (w/o battery)
